

# SPRING MEETING SWISS SOCIETY OF PHARMACOLOGY & TOXICOLOGY

## Pharmacology and Toxicology of Ageing: Integrating education from basic research to clinical science

April 19, 2012  
Inselspital Bern

**Infos: <http://www.swisspharmtox.ch>**

February 12, 2012

Dear colleagues,

It is our pleasure to invite you to the Spring Meeting of the Swiss Society of Pharmacology & Toxicology, which will take place on April 19, 2012, in Bern. This year's topic will be: **Pharmacology and Toxicology of Ageing: From Basic Research to Clinical Science.**

The aim of the meeting is to gather the members of the different associated societies (Swiss Society of Experimental Pharmacology (SSEP), Swiss Society of Clinical Pharmacology & Toxicology (SSCPT), Swiss Society of Toxicology (SST)), and the Swiss Society of Pharmaceutical Medicine (SSPM) around themes of common interest, and stimulate discussion and interaction. In the same context we also aim to encourage and foster the contacts between the academic, clinical and industrial sector. Another benefit of the meeting is that it provides to our younger members the possibility for contacts in order to help them preparing their career plans in the academic, clinical, industrial or other fields.

The key elements of the meeting are:

1) **Key Note Lectures**

- **Peter Landsdorp**, who will give a lecture about **telomerases and their role in the renewal** of human stem cells.
- **Guido Kroemer**, who will talk about **autophagy-dependent anticancer immune responses** induced by chemotherapeutic agents.

2) **Minisymposia**, that deal with **ageing and the nervous system** (morning) and **ageing and cancer** (afternoon). Both symposia will cover these topics from the point of view of experimental scientists, toxicologists, and clinicians.

3) **Poster session** and **young investigator research session**. These sessions are an ideal opportunity for our young colleagues to present their research, and get into contact with people outside their direct academic or clinical environment. Moreover, the three best posters and the best oral presentation will be awarded.

We are looking forward to meet you in Bern on April 19, 2012.

Olivier Staub  
Martin Bopst  
Hugo Kupferschmidt  
Martin Traber

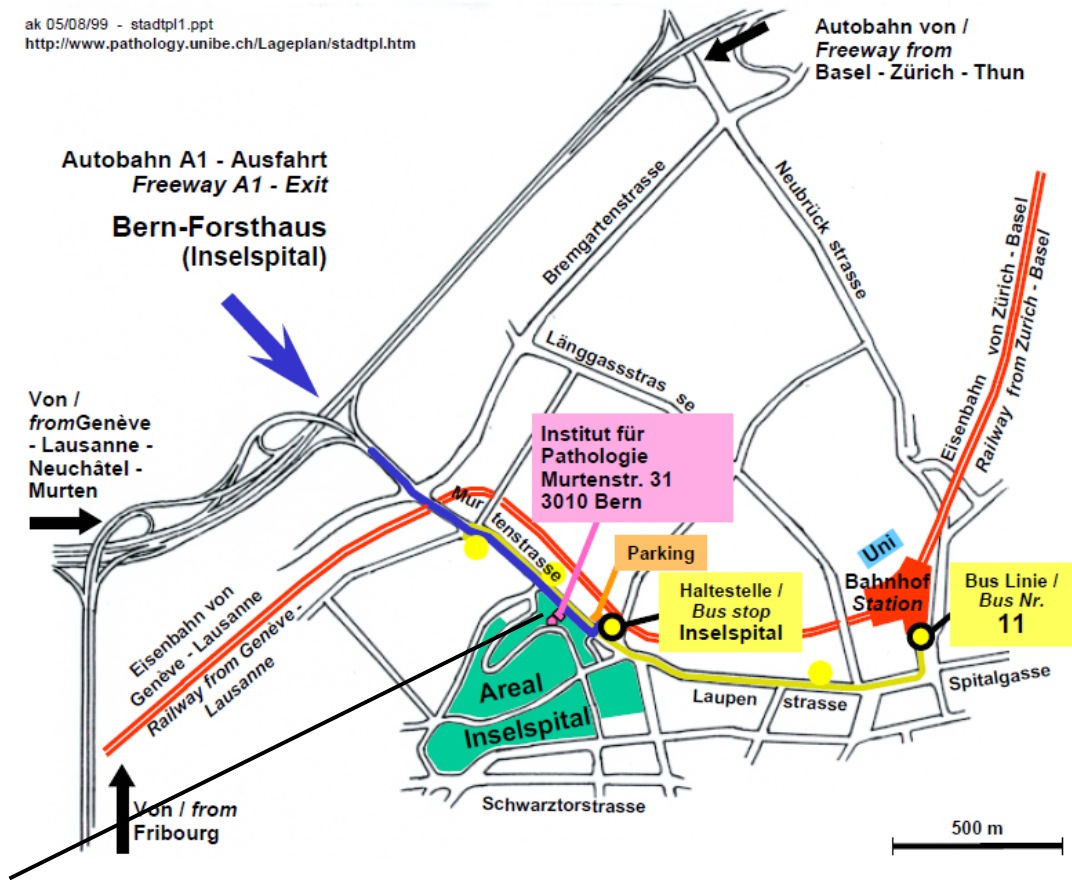

## SSPT SPRING MEETING 2012

**Thursday, April 19, 2012**

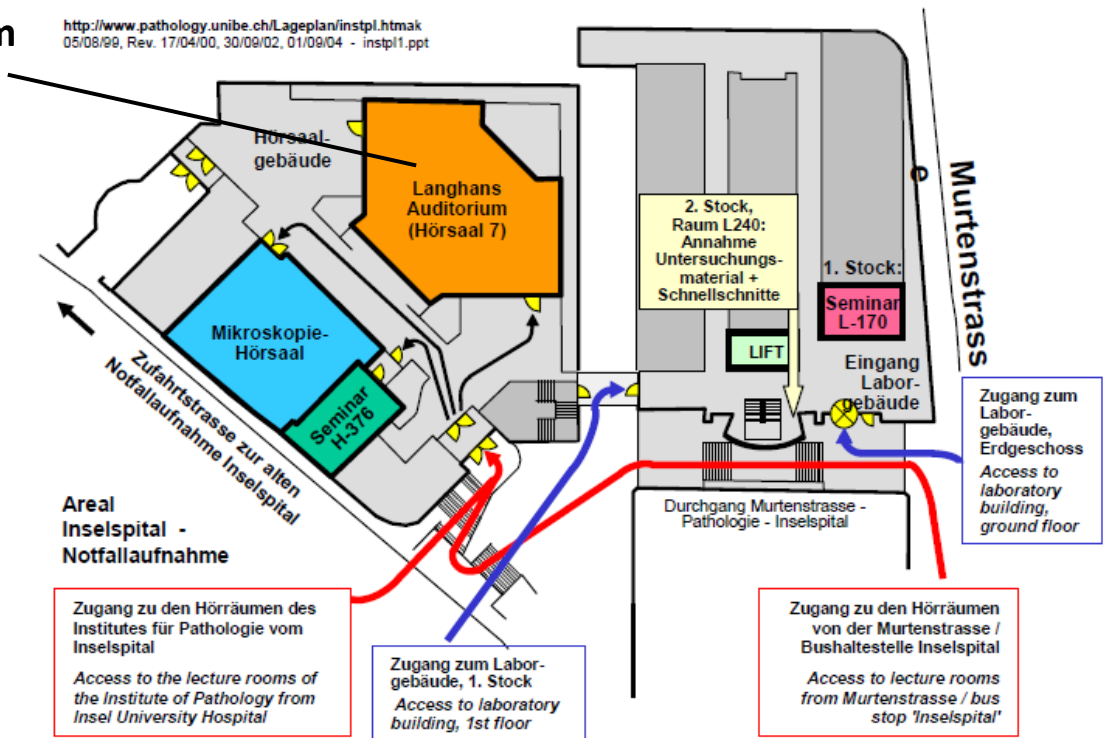

- 0830 Registration
- 0900 Welcome address SSPT President and Organizers
- 0915 Keynote Lecture: **Telomerase levels control renewal of human stem cells**  
*Peter Lansdorp, Research Institute on the Biology of Ageing, Groningen, NL*
- 1000 Coffee Break, Mounting of posters
- 1030 Minisymposium “**Ageing and the nervous system**”
- 1030 **Immunotherapy of Neurodegenerative Diseases**  
*Roger Nitsch, Division of Psychiatry Research, University of Zurich*
- 1100 **CNS-related side effects in toxicity studies and strategies for risk assessment**  
*Christian Trendelenburg, PCS Project Safety Assessment, Novartis Pharma, Basel*
- 1130 **Ageing-related brain pathologies: from cognition to mood regulation**  
*Panteleimon Giannakopoulos, Département de Santé Mentale et de Psychiatrie, Geneva*
- 1200-1415 Lunch and Posters
- 1300-1400 General Assembly Swiss Society of Pharmaceutical Medicine
- 1415-1500 **Young investigator research**  
Research presented by Junior Society members, selected based on abstracts
- 1500 Minisymposium “**Cancer as a consequence of ageing**”
- 1500 **Autophagy-Dependent Anticancer Immune Responses Induced by Chemotherapeutic Agents**  
*Guido Kroemer, INSERM U848, Villejuif, France*
- 1545 **Mechanism Based Toxicities of Targeted Anti-cancer Agents**  
*Jacqueline Kinyamu-Akunda, Novartis Pharma, Basel*
- 1615 **Clinical aspects of geriatric oncology**  
*Nicole Doser Jos-Roland, Service de gériatrie et de réadaptation gériatrique, CHUV, Lausanne*
- 1645 Poster Price distribution
- 1700 Concluding Remarks and End of Meeting

- Organization** Prof. Olivier Staub, Lausanne, SSEP  
Dr. Hugo Kupferschmidt, SSCPT  
Dr. Martin Bopst, SST  
Dr. Martin Traber, SSPM
- Secretariat** Jean-Claude Broillet  
Department of Pharmacology & Toxicology  
Rue du Bugnon 27  
1005 Lausanne  
Tel. 021 692 5334  
FAX 021 692 5355  
jean-claude.broillet@unil.ch
- Location** Auditorium 7 Langhans, Pathology, Inselspital, Bern (see attached map)
- Registration** until March 20, 2012  
Registration form to be sent by E-Mail to [jean-claude.broillet@unil.ch](mailto:jean-claude.broillet@unil.ch)  
Registration only valid after payment of registration fee
- Fee**
- |                          |          |
|--------------------------|----------|
| Members:                 | CHF 40.- |
| Student-Members:         | free     |
| Non-Members:             | CHF 75.- |
| Students (non-members)*: | CHF 40.- |
| Regular*:                | CHF 75.- |
- includes conference package (abstract book, lunch, confirmation of participation)  
\* Possibility to apply for member ship via <http://www.swisspharmtox.ch> and the corresponding daughter society
- Payment** Swiss Society of Pharmacology & Toxicology  
1066 Epalinges  
Account: 40-24011-1 or IBAN CH42 0900 0000 4002 4011 1  
Swiss Post – PostFinance, Nordring 8, 3030 Bern
- Confirmation** After registration of payment fee
- Abstracts** There will be poster prizes for the 3 best posters of the meeting.  
Moreover, 3 abstracts will be chosen for oral presentations  
Abstracts should contain:  
**Title**, Authors, Affiliation, Body with maximum 2400 characters  
Deadline Abstract submission: March 20, 2012
- Credits** SSCPT/SGKPT: 6  
SSPM: to be announced

## Langhans Auditorium HS 7

**Registration Form**

**Name:**

**First name:**

**Address:**

**E-mail address:**

**Society:**

**Membership type: (Regular, Student)**

**I am submitting an abstract as a presenting author:**

**Registration fee to be paid to:**
